

EXPORT PROCESS (Container)

We need to receive the following documentation from the exporter:

- 1.Full product description and customs number (Arancel)
- 2.Commercial Invoice + Packing List
- 3.Authorization to DIAN (CUSTOMS) and ports for handling cargo
- 4.Letter to Antinarcotic Police
- 5.Company constitution certificate (Certificado de Constitución y Gerencia)
- 6.National export register (Registro Nacional de Exportadores)
- 7.NIT fotocopy

STEP 1.

- 1.SHIPPING LINE : Depending final dates on the cargo readiness we choose the next available vessel / shipping line
- 2.We choose the INLAND TRUCKING company according to dates and fastest/safety delivery to port
- 3.The Truck pick up the container at the SHIPPING LINE warehouse
- 4.The container is taken to the customer-expoter place to be filled
- 5.Once container is filled is then sealed and send to port
- 6.At port the truck waits at the entrance and then a formulary is filled with the information required by the port authorities about the cargo, exporter, etc.
- 7.DEX (Export Document) is presented to customs for revision and approval

Step 2

- 8. Customs (DIAN) decides if the container is inspected PHISICALLY or DOCUMENTARY. PHISICAL means that container is OPEN and cargo fully revised . DOCUMENTARY means that only documents are revised.
- 9. IF PHISICAL then container is moved to the INSPECTION place for revision
- 10. ANTINARCOTICS INSPECTION is also taken place at the same time to save money. Any time ANTINARCOTICS can order a new revision
- 11. If everything (CUSTOMS + ANTINARCOTICS) is in order, then container is released to the SHIPPING LINE for the next available vessel

Step 3.

- 12. We give the orders to SHIPPING LINE AGENCY in Colombia to issue the MASTER Bill of Ladings as instructed by customer or forwarders
- 13. At the end we sent all the export documents (invoice, pack list, origin certificate, and others) to destiny (forwarder or receiver)

PHISICAL INSPECTION
